[Of unknown etymology: the orig. form in Eng. was *boydekyn*, *boidekyn*, in 3 syllables. The form naturally suggests a dim. in -kin; but no primitive of the required form appears in Eng. or other related language. The phonetic history is also difficult. (In default of finding it elsewhere, the derivation has been sought in Celtic. The Welsh *bodlyn* 'little dagger', fixed on by some, must be discarded, both because it is accented on the penult, and because the ME. word was itself adopted in Welsh as *buytkin*; but some still think it possible that *boydekyn* may have originated in some kind of corruption of Ir. *bideog*, Gael. *bidadag*, Welsh *bidadag* dagger.)]

Body (bɒdi). Forms: 1 *bodis*, 3 *bodis*, 3-4 *bodi*, *bode*, 3-7 *bodie*, 4-6 *bodye*, 6 *bodey*, 3-*body*. [*OE. bodig* neut., elsewhere in Teut. only in OHG. *potah*, *botah*, MHG. *botich*, -*ech*, *potih* str. masc. 'body'; cf. mod. Bav. dial. *bottech* the 'body' of a chemise, Grimm. The word has died out of Ger., its place being taken by *leib*, orig. 'life', and *körper* from Lat.: but, in Eng., *body* remains as a great and important word.

Since Ger. *botah*, *potah*, with final *h*, is not the exact phonetic equivalent of *OE. bodig*, there is ground for supposing that the word has been adopted in both from some foreign source. E. Müller connects *botah* with *botakha* fem., mod. G. *botlich* masc. 'cask, tub, vat', identified by Wackernagel with med. L. *butica* = Gr. *βουτήκη*. But there does not appear to be any clear way of connecting the two words. (Fick's conjectural derivation from *bhadh* 'to bind' is out of the question. Gaelic *bodhaig* is from Eng.)

Bogie (bɒgi). Also **bogy**, **bogey**. [A northern dialect word, which has recently been generally diffused in connexion with railways as applied to the plate-layer's bogie, but especially in sense 2. Of unknown etymology: notwithstanding absurd stories in the newspapers (invented *ad rem*), it has (as the sense might show) nothing to do with **BOGY**, which is not a northern word.]

1. *north. dial.* A low strong truck upon four small wheels, also called *trolly*, *hurlly*, etc. 'A kind of cart with low wheels and long shafts, used by masons to remove large stones' (Peacock *Lonsdale Gloss.*); 'a rude contrivance for moving heavy articles, consisting of a simple plank on low wheels' (*Lanc. Gloss.*). *esp.* in Newcastle, A strong low truck (about 1 ft. high) on 4 small wheels, used, since c 1817, for transporting a single cask or hoghead from the quay to the town; also a flat board with 4 very small wheels on which lads career down steep banks or roads, as in the Canadian sport of *tobogganing*. Hence, in general use, the low truck used by platelayers on a railway.

2. A low truck or frame running on two or more pairs of wheels and supporting the fore-part of a locomotive engine or the ends of a long railway-carriage, to which it is attached by a central pivot, on which it swivels freely in passing curves; a revolving under-carriage.

Bogie, variant of **BOGY**.

Bogle (bɒɡl̩). Forms: 5-6 **bogil** (l), 7 **bogell**, 8-**bogle**; 7-9 *north. Eng.* **boggle**. [Of the various names *bogle*, *boggard*, *bogy*, applied to a goblin, *bogle* is the earliest known, being common in Scottish literature since 1500. In the present century its use by Burns, Scott, Hogg, and others has introduced it into English literature; but the special English form seems to be *boggle* (with short o as in **BOGGARD**), found in north. Eng. dialects from Cumberland to Lincolnshire. The derivation of the whole group is uncertain: the primitive may be *bogge*, *Bog sb.* 2, and this may be a variant of *bugge*, *Bug*; which is not improbably a Welsh *bug* (= *bug*) ghost, bugbear, hobgoblin. The form of *bogle*, *boggle*, would still remain unexplained: it is perhaps worth while to compare Welsh *bugwul* (= *bugwul*) 'terror, terrifying' (whence *bygylu* *bugwul* to terrify), and *bygel* (or *bugail*) *nos* a hobgoblin of the night: see *Bug*. But there are also German words of similar form and meaning, *bogge* and *bogel-mann* 'a bogy, a bogle': so that uncertainty attaches to the source. Cf. **BOGGARD**.]

1. A phantom causing fright; a goblin, bogy, or spectre of the night; an undefined creature of superstitious dread. (Usually supposed to be black, and to have something of human attributes, though spoken of as *it*.) Also, applied contemptuously to a human being who is 'a fright to behold'.

Bogus (bɒɡʊs), (*sb.* 1) a. [A cant word of U. S., about the origin of which many guesses have been made, and 'bogus' derivations circumstantially given.

Dr. S. Willard, of Chicago, in a letter to the editor of this Dictionary, quotes from the *Painesville (Ohio) Telegraph* of July 6 and Nov. 2, 1827, the word *bogus* as a *sb.* applied to an apparatus for coining false money. Mr. Eber D. Howe, who was then editor of that paper, describes in his *Autobiography* (1878) the discovery of such a piece of mechanism in the hands of a gang of coiners at Painesville, in May 1827; it was a mysterious-looking object, and some one in the crowd styled it a 'bogus', a designation adopted in the succeeding numbers of the paper. Dr. Willard considers this to have been short for *tantrabogus*, a word familiar to him from his childhood, and which in his father's time was commonly applied in Vermont to any ill-looking object; he points out that *tantrabogus* is given in Halliwell as a Devonshire word for the devil. *Bogus* seems thus to be related to *Bog*, etc.]

† 1. *sb.* An apparatus for counterfeit coining. *Obs.* 1827 *Painesville Tel. (Ohio)* 6 July, That he never procured the casting of a *Bogus* at one of our furnaces. *Ibid.* 2 Nov. The eight or ten boguses which have been for some time in operation.

2. *adj.* Counterfeit, spurious, fictitious, sham: 'originally applied to counterfeit coin' (Webster).

Bogus (bō'gəs), *sb.* ² U. S. [Has been conjectured to be ad. F. *bagasse* sugar-cane refuse; but perhaps is the same word as prec.] 'A liquor made of rum and molasses.' Bartlett *Dict. Amer.*

Bogy, bogey (bō'gi). Also *boguey, bogie*. Pl. *bogies*. [Found in literature only recently; old people vouch for its use in the nursery as early as 1825, but only as proper name (sense 1). Possibly a southern nursery form of *bogle, boggle*, and *bog-gard*, or going back like them to a simpler form which, as mentioned under *Boe* and *Boole*, may be a variant of *bugge*, Bug 'terror, bugbear, scarecrow'. But in the absence of evidence, positive statements concerning its relation to these words cannot be made. (That they are connected with the Slavonic *bog* 'god', is a mere fancy from the similarity of form, without any evidence.)]

1. As quasi-proper name: The evil one, the devil. 1836-40 BARNHAM *Ingol. Leg., Witches' Frolic*. Bohemian (boh'mi-än), *a.* and *sb.* [*f. prec.* + *-AN*. The transferred senses are taken from French, in which *bohème, bohémien*, have been applied to the gipsies, since their first appearance in the 15th c., because they were thought to come from Bohemia, or perhaps actually entered the West through that country. Thence, in modern French, the word has been transferred to 'vagabond, adventurer, person of irregular life or habits', a sense introduced into Eng. by Thackeray.]

Certainly not connected with *bost*, *BOAST* (as has been suggested on the ground of the 16th c. *Sc.* spelling *boist* for *bost*). The phonology and form suggest French origin, and in form the ME. word exactly answers to OF. *boisteus*, AF. *boistous*, mod. F. *boiteux* lame; but no connexion of sense appears to be traceable, at least if the etymology proposed by Diez for the French word from *boiste* 'box', 'knee-joint' holds good.

The essential meaning in Eng. from the first appears to have been 'coarse, rough', but senses 1-4 are all nearly equally early. The later variants *boisteus*, *boystuous*, led to the modern BOISTEROUS.

(The mod. Cornwall dialect has in W. Corn. *boist* corpulence, *boustis*, *bustious* stout, overfat, burdensome to oneself; in E. Corn. *boostis* fat, well-conditioned: cf. sense 3. This occurrence of a sense so long obs. in literary Eng., and esp. of an apparent radical sb. *boist*, not known at all in literature, is very curious: but there are no similar words known in Celtic Cornish. The Welsh 'boust' wildness' appears to be a figment of Owen Pugh, but *boustis* 'wild, ferocious' occurs in the 14th c., and may be a deriv. of an obs. 'boust' = L. *bestia*; or it may be merely the ME. *boystous*.)

Bond (*bond*), *sb.*, *2* and *a*. Forms: 3-6 *bonds*, (5) *bounde*, 6 *band(e, bund)*, 3- *bond*. [Early ME. *bonde*:—OE. *bonda*, *bunda* husbandman, householder, husband, a. ON. *bōnde* (-i), contr. of *bōande*, *būande* 'occupier and tiller of the soil, peasant, husbandman; husband', ppl. *sb.* from *būa*, *bōa* to dwell, L. *colere*, and thus equivalent in sense and etymology to Ger. *bauer*. In Iceland the *bōnde* was a peasant proprietor 'including all owners of land from the petty freeholder to the franklin. In the more despotic Norway and Denmark, *bōndi* became a word of contempt, denoting the common low people; and in mod. Da. *bønder* means *peas.* In the Icelandic Commonwealth the word has a good sense, and is often used of the foremost men..this notion of the word (a franklin) still prevails in the mind of Icelanders' (Vigf.). In OE., *bonda*, *bunda* appears first in the Laws of Cnut, apparently in the same sense as in ON., and nearly, if not entirely, = OE. *ceorl*. When, through the effects of the Norman Conquest, the *ceorl* sank from the position of a free-man tilling his own land to that of a tenant bound to certain services to a lord (see *Freeman Norm. Cong.* V. 477), *bonde* became equivalent to 'villain', and so at length to 'serf, slave' (sense 3), and was thenceforth evidently associated with *BOND sb.* 1 and *BOUND*. Hence the occas. variant *bande*: but *bounde* may represent the OE. variant *bunda*.]

The ON., OHG., MHG., and Du., have, beside the general sense 'bone', the specific sense 'shank (of the leg)', which is the ordinary sense in mod.Ger. Hence it has been suggested that the original meaning was 'long bone'; and that the word may have connexion with the ON. adj. *beinn*, nom. masc. *beinn*, 'straight'. But this is a bare conjecture; the standing of the ON. adj. being itself obscure. In English there has never been any tendency to the specific sense, for which OE. had *scanca* SHANK.]

Generally thought to be etymologically connected with the name of the beech-tree, OE. *bōc*, *bēce*, ON. *bōk* (see Bæck), the suggestion being that inscriptions were first made on beechen tablets, or cut in the bark of beech-trees; but there are great difficulties in reconciling the early forms of the two words, seeing that *bōk*'s 'writing-tablet' is the most primitive of all.]

a. *spec.* (In reference to modern things.) Such a treatise occupying numerous sheets or leaves fastened together at one edge called the *back*, so as to be opened at any particular place, the whole being protected by binding or covers of some kind. But, since either the form of the book or its subject may be mainly or exclusively the object of attention, this passes on either side into

b. The material article so made up, without regard to the nature of its contents, even though its pages are occupied otherwise than with writing or printing, or are entirely blank (cf. 9): e.g. 'a handsome book', i.e. a trophy of the binder's art, 'a tiny book', one that may be put in the waistcoat pocket.

c. A literary composition such as would occupy one or more volumes, without regard to the material form or forms in which it actually exists; 'an intellectual composition, in prose or verse, at least of sufficient extent to make one volume' (Littre s.v. *livre*). In this sense Carlyle described himself as 'a writer of books'.

It is not now usual to call a (modern) literary composition in manuscript a 'book', unless we think of its printing as a thing to follow in due course. In sense b every volume is a 'book'; whilst in sense c one 'book' may occupy several volumes; and on the other hand one large volume may contain several 'books', i.e. literary works originally published as distinct books. No absolute definition of a 'book' in this sense can be given: in general, a short literary composition (especially if ephemeral in character, and therefore also in form) receives some other name, as *tract*, *pamphlet*, *sketch*, *essay*, etc.

Boom (būm), *sb.* 3 *U. S.* [This and its verb (*BOOM v.* 3) have arisen recently in U. S.: it is not clear whether the vb. is from the sb., or conversely. The actual origin is also a matter of conjecture;

Cf. esp. *Boom v.*¹ 1 c., and 2. But association, original or subsequent, with other senses of Boom, is also possible, and the actual use of the word has not been regulated by any distinct etymological feeling, so that no derivation will account for all its applications.]

But in Sc., the equivalent 'bum' is used both of the hum of bees, etc., of the sound of a passing shot or stone, and of the rushing motion of a stone or the like, as 'to bum stones at any one', to kick an object and 'send it bumming' (i. e. spinning) away.]

Collins (Judge Advocate of the colony when founded in 1788) collected a short vocabulary of Port Jackson words, in which *wo-mur-rang* occurs among 'names of clubs'. (He has also *wo-mur-ra* the throwing stick, which some later writers erroneously identify with the boomerang.) In a short vocabulary of the extinct language of George's River, Botany Bay, printed by Ridley, *Kamilaroi* 103, are *womurk* 'throwing stick for spear', *bamarin* 'boomerang'. *Boomerang* was given as 'the Port Jackson term' by Capt. King in 1827; its exact relation to *wo-mur-rang* and *bamarin*, and the relations of these to each other can perhaps not now be determined. A very graphic account of the use of the weapon (described as a bent, edged waddy resembling slightly a Turkish scimitar) is in the *Sydney Gazette* of 23 Dec. 1804: 'the name boomerang has not been found in that paper up to 1823.]

Boor (bū'r). Forms: (5) boueer, 6-7 boore, bour, (7) bore, boar, 7-boor (9) bauer. [A word of involved history in and out of English, though the ultimate etymology is clear enough. The 16th c. *bour*, *boore*, may possibly have been native Eng., repr. an earlier **būr*, short for OE. *gebūr* 'dweller, husbandman, farmer, countryman' (Bosw.), a deriv. of *būr* 'dwelling, house, cottage, BOWER', f. the verb root, *bū* to dwell: cf. the compound *neighbour*:-ME. *nezebur*:-OE. *ndah-gebūr* 'nigh-dweller', also modern East Anglian *Boo* 'neighbour' as a form of address. But on the whole, in its literary use, the word is more likely to have been adopted from LG. *būr*, Du. *boer*: see the quots. under sense 2, and BOEM. These words are themselves etymological equivalents (or nearly so) of OE. *gebūr*; the OHG. form being *gibūr*, *gibūro*, MHG. *gebūr*, *gebūre*, MLG. *gebūr*, and *būr* (occurring 1365), mod.LG. *buur* (made *bauer* in mod.HG.), MDu. *ghebuere*, *ghebuer*, and *buer*; also (late) *geboer*, which was not properly a Du. form, but probably, according to Cosijn, adopted from Frisian, or, according to Franck, from the LG. on the eastern frontier of the Netherlands. This last is in mod.Du. *boer*. The original sense of WGer. *gibūr*, *gibūro*, was 'inmate of a *būr* or BOWER, fellow-occupier of a dwelling, farm, or village; neighbour, mate'. Partly from being preserved mainly in rural use, but largely from association with the vb. *būan* (MHG., MDu. *būwen*, Ger. *bauen*, Du. *bouwen*) to inhabit, cultivate, till (of which, as we have seen, it was not a derivative, though a cognate word from same root *bū-*), its original connexion with *būr*, BOWER, was lost, and the sense more and more confined to that of 'peasant, rustic', and thence 'clown'.

While mod. Ger. has merged the word in form with *bauer*, agent-noun from *bauen* 'to cultivate, to build', mod. Du., on the contrary, makes a distinction in use between the native *buur* (MDu. *ghebuere*, *ghebuer*) 'neighbour', and the adopted *boer* (MDu. *geboer*) 'peasant, husbandman, farmer, clown, knave at cards', and keeps both distinct from *bouwer* 'tiller, builder' (though in MDu. the latter was used in senses subsequently taken up by *geboer*, *boer*.)

Booty (bū-ti), *sb.* Forms: 5-6 *botye*, *buty*, 6 *boty*, *bootye*, *bootie*, (7 *Sc.* *bouty*), 6- *booty*. [The mod. as well as the early forms, point to a ME. long *ō*, and thus to connexion with *bōt*, *Boor sb.1* advantage, and *v.1* to profit. But there is no accounting for such a formation from *bōt*, *boot* directly; and it is generally held that the English word is due to an adaptation of some word cognate with Ger. *beute*, F. *butin* (or the latter itself) influenced in form by association with *bōt*, *boot*. The Teutonic words in question are ON. *býti* 'exchange, barter', connected with *býta* 'to exchange'; also 'to deal out, distribute'; MDu. and MLG. *būite* (MG. *būite*, MHG. *būite*, mod.G. *beute*, mod.Du. *buit*), all with the sense 'booty'. *Butin*, from French, was used side by side with *boty*, *booty* during the 16th c., and it is curious that the first known instances of both occur in Caxton's *Chesse*, within a few lines of each other: see BUTIN. Caxton has also *buty* (see 1491), and in 17th c. we find an instance of *bootyn* for *butin*: but on the whole the contact of the two forms appears to be slight. The shorter form *Boor (sb.2)*, and the related *Boor v.2* **BOOTER** (*frebooter*), **BOOTING**, are all later.

(An early but dubiously genuine use appears under *Booty a.*, which, if really used by Lydgate c1430, would carry the question farther back, but leave it still more obscure.)

Bore (bōr), *sb.* 2 [This, and its vb. BORE² arose after 1750; etymology unknown.

(Usually supposed to be f. BORE *v.* 3, which is then regarded as a fig. use of BORE *v.* 1, with the notion of 'persistent annoyance' (cf. Ger. *drillen*). But it seems impossible in this way to account for sense 1 of the *sb.*, which is apparently the source of the other senses, and of the verb itself. If related at all to BORE *v.* 1 or *sb.* 1, the connexion must be much more indirect; possibly there is an allusion to some now forgotten anecdote. The phrase 'French bore' naturally suggests that the word is of French origin; *bourre* padding, hence (in 18th c.) triviality, *bourrer* to stuff, to satiate, might be thought of; but without assuming some intermediate link these words do not quite yield the required sense.)

and ON. the word is recorded chiefly in the primary sense of 'fortress, castle', but there are traces of the sense of 'town, civic community', which is found in Goth. and OE., and may therefore be assumed to have been developed in OTeut. Of the immense variety of spellings current in ME., *burrough* became the prevalent one in early mod. Eng., but was subsequently displaced by *borough* in England and Ireland, while the form established in Scotland was *BURGH*, q.v. The Danish *BORG* and Fr. *BOURG* have also been used by historical writers in special senses. See also BURROW, BERRY *sb.*

Like other fem. consonantal stems, the OE. *burg* had vowel change (*byrig*) in gen. and dat. sing., and nom. acc. plural, which survived in dat. sing. to the 13th c. Also a town which sends representatives to parliament. (A *municipal borough* often differs in territorial extent from the *parliamentary borough* of the same name.) There is no direct evidence that in OE. *borh* was used as = *fridborh*, but in 16th c. *borow* appears as a synonym of 'tithing' or 'frankpledge', and from that period to the present time many writers have confused it with BOBROUGH. 1. To give security for, take on pledge.

1. *trans. a.* To take (a thing) on pledge or security given for its safe return; *b.* To take (a thing) on credit, on the understanding of returning it, or giving an equivalent; *hence*, to obtain or take the temporary use of (a thing recognized as being the property of another, to whom it is returnable). *Const. of*, rarely *from*, formerly *at*.

The essential notion of borrowing originally was the security given for the safety of the thing so taken: the essential notion now is that the thing is the property of another and liable to be returned, the only security given being often the undertaking, formal or implied, that it shall be so returned when we have used it.

2. *fig.* To render oneself indebted for; to make temporary use of (something not one's own); used, e.g. of temporal possessions, with notion of their being only *lent* to us, not given. More usually of immaterial things: as, to adopt (thoughts, expressions, modes of conduct) from another person, or (words, idioms, customs, etc.) from a foreign language or people; to obtain (a temporary favour) by request; to derive (one's authority, etc.) from another, as opposed to holding it by inherent right; to draw (a comparison, inference, suggestion) from some source alien to the subject in hand; to adopt (something) for other than its normal purpose. *Const. from, of*, formerly *at*.

As applied to the adoption of foreign words or customs, it properly implies that the adoption is merely temporary; but this restriction is now often disregarded, esp. by writers on philology; cf. *LOAN-WORD*.

Prof. Skeat suggests for the vb. a LG. origin, comparing MDu. *butsen*, (1) to strike, beat, (2) to repair (Oudemans), app. related to Du. *butsen* to knock, dash, Ger. dial. *butschen*, *butsen* to strike, knock; according to Franck an onomatopoeic word of echoic origin. But the sense 'repair' in Du. *butsen* seems to be recent, while in English it appears in Wyclif: also there is no sense 'knock' in English, so that connexion with the continental words is very doubtful. Perhaps the Eng. word is an onomatopoeia related in its genesis to 'patch'; cf. Ger. *batsen* to patch. See BODGE.]

[early ME. *bāðe* (genitive *bāðre*) was app. a. ON. *báðar* m., *báðir* fem., *bæði*, *bæði* neut. No trace of this extended form appears in OE.; the simpler form *bei*, Bo existed side by side with *both* until 14-15th c., when the former died out.

The suffix in ON. *báðar* and the equivalent forms is believed to be unconnected with that in Goth. *baiþs* both (declined as sb. plur.), and to represent the definite article (in Goth. *bai*, *þu*) which seems to have coalesced with the simple *bai*, *ba* owing to the tendency to say 'both the' instead of merely 'both'; cf. Goth. *ba þu skipa* 'both the ships' *Luke* v. 8. The constructions of *both* in Eng. follow those of the earlier Bo and to some extent those of ALL; examples of its use as attribute to a sb. plur. without intervening possessive, demonstrative, or article, do not appear until after Bo had become obsolete.]

A. *adj.* I. Proper sense and normal uses.

The one and the other; referring to two specially designated persons or things, implying that two and no more are so designated, and emphasizing the fact that neither of them is excepted from the statement made; equivalent to 'the two, and not merely one of them'.

The following constructions occur:

1. *absolutely.* From 14th c. sometimes *the both* (*obs.*). In early mod. Eng. sometimes inflected as a sb., with genitive *both's*.

Eng.* II. 113 Both were Tories; both were men of hot temper and strong prejudices.

2. *In apposition with a plural sb. or pronoun.*

When referring to the subject of a sentence, *both* was in early ME. usually separated from it, and placed after the vb. or whole predication. This is still common dialectally. In the literary language, *both* is still placed after the verb *be* (occasionally also after *become*, *seem*, *appear*, etc.), and after the auxiliary in a compound tense.

They have both gone. The brothers might both have come.

3. *In attributive relation to a plural sb.:*

a. with a defining word (demonst. or poss. adj., 'def. article', genitive case, etc.): *Both* precedes the defining word, as 'both my friends saw it'. It may also (with greater emphasis) follow the sb., esp. when the subject of the sentence, as 'my friends both saw it'. (In this case it further follows the verb *be* or an auxiliary, as 'my friends had both seen it': cf. 2).

The constructions are the same when there is ellipsis of the sb. after demonst. or poss. pron., as 'I need both these', 'these are both mine'. For the colloq. *both of* before sb. see 6.

c. without defining word. *Both* regularly precedes the sb., but in lively or humorous address

may sometimes follow it, as in quot. 1597. *Both ways*: in both respects.

4. *In attrib. relation to a plural pronoun:*
a. in nom. or obj. *Both* follows the pronoun, as 'they both went'. (With *be* and auxiliaries it further follows the verb: cf. 2). In ME. *both* might precede the pronoun, 'both they went'; of this usage *both* which still occurs; but the regular modern construction with *both* preceding the pronoun is 'both of us', 'both of whom', 'both of which' (see 6).

WILSON *City Plague* II. i. 14 They both speak of death. 1848 MACAULAY *Hist. Eng.* II. 114 The papers found in the strong box. . . had converted them both to the true faith.

b. in genit. pl. with a sb., as *our*, *your*, *her* (= their), *their bath*, *both*, *bothens*, *botheres*, etc. (afterwards *both*, which sometimes preceded the pron.) = of us, you, them both. *Obs.*

Latterly the sb. often improperly took the plural form by attraction of the pronoun; this idiom is still in vulgar use, as 'It is both your faults', 'she is both their mothers'.

LENNOX *Female Quix.* (1820) II. 29 These sentiments which now cause both our unhappiness.

5. *In attrib. relation to two substantives or pronouns (or a sb. and pron.) coupled by and*, the same constructions obtain as in 3: as 'both John and I came', 'John and George both came', 'the brother and sister are both dead', but this is practically indistinguishable from the adverbial use in B 1.

6. With *of*: *Both of* is now used before pronouns and pronominal words, instead of the simple *both* (see 4). The use with a sb., as 'both of these arguments', is colloquial, but scarcely ever occurs in literature.

B. *adv. (conj.)*

1. Preceding two homogeneous words (sbs., adjs., vbs., advs., or preps.) or phrases, coupled by *and*, *both* adds emphasis to the sentence by suggesting a contrast with the statement as it would have been had one of the terms been omitted. *Both . . . and* is thus nearly = *not only . . . but*. (*Both* in this construction is not now preceded by a genitive case or an adj. of any kind, as in quotes. 1647, 1690, 1834).

As *both* corresponds to the Latin *et*, it is usual to class *both* as a conjunction; but it more properly belongs to the same grammatical category with *even*. This use of *both* arises out of the construction in A 5, and in 'both the king and the queen spoke', 'the king and the queen both honour him', 'Mercury and Venus are both inferior planets', *both* may still be viewed as an adjective in attributive relation to the two substantives. But in the extended use 'both juster and kinder' or 'both by day and by night', 'he both walks and runs', it can no longer be so treated.

2. *Both* may follow, instead of preceding (as in 1), the two words or phrases connected by *and*; now only in the case of two sbs. (two pronouns, or sb. and pronoun) subjects of the same plural verb, but formerly (and still dialectally) in all other cases. In this use *both* may often be replaced by *too* or *also*.

The Irish *bodhar* deaf, *bodhairim* I deafen (suggested by Crofton Croker), and *buidhírt* trouble, affliction, *buidhírim* I vex (proposed by Garnett) alike labour under the difficulty that the spoken words do not suggest *bodder* or *bother*. Boulder-stone (*bō'ldəstōn*). Forms: 3-6 bulder-stone, 7 boother, bowther-stone, 8-9 bowlder-stone, 7-boulder-stone. [Etymology obscure. With ME. *bulderston*, cf. Sw. dial. (E. Gothl.) *buldersten* a large stone in a stream, one which makes a rumbling noise in the water, as opposed to *klappersten* a smaller pebble; f. Sw. *bulder* noise, roar, *bulld-a* to roar, rumble + *sten* = STONE. This gives a passable sense; but no corresponding word is known elsewhere in Swedish, Old or New, Icelandic, Norwegian, or Danish; so that actual relation between the North. Eng. and Swedish dialect word cannot be asserted.

No words answering to Sw. *bulder*, *bultra*, exist in Old or New Icelandic; but Da. has *bulder* 'tumbling noise', *buldr* 'to racket, rattle, make a noise'. If either these words were in use in North. Eng., or a compound '*bulder-sten*' in Da., it would be natural to find here the origin of the Eng. word; but no such connecting links are found. The verb and *sb.* seem indeed to exist in the Sc. *bulder* 'to bellow, roar', *bulder* 'bellowing, roar, loud gurgling sound', but this is not quite the shade of sense required, while the form it would yield is not *bulder*, *bulder*, *bowther*, or *boother*, as actually found in North. Eng. dial., but '*bulder-stane*', which is not found.]

Bounce (*bauns*), *v.* Forms: 3 *bunsen*, 4-7 *bounse*, 6-7 *bownse*, 6- *bounce*.

[The origin of **BOUNCE** *v.*, *sb.* 1, *intr.* (adv.) is obscure, and their mutual relations complicated. ME. *bunsen* agrees in form and meaning with mod. Du. *bons* a thump, *bonsen* (LG. *bunsen*, HG. dial. *bunnsen*) to beat, thump, thwack; but there is no early record of these words, and perh. they may be related to the Eng. word merely as parallel onomatopoeic formations. Early in 16th c. we find the interjectional use of *bounce* (= LG. and HG. dial. *bunns*) to imitate the report of a gun or other loud sudden noise, and (a little later) to express sudden or violent movement. About the same time the vb. (previously seldom occurring) became common in its original sense 'to beat', but with the notion of noise or vehemence more conspicuous - 'to knock, bang'; it also acquired the senses 'to make a banging or explosive noise', and 'to make a sudden or violent movement of a bounding nature'. The sb. is also found in all these senses early in the 16th c. Whether these were natural developments of the original sense, as expressing phenomena which often accompany a knock or thump, or at least are present in the bang of cannon (which had come into use just before these extensions of *bounce*), or whether there has been influence of any other words is not clear. The development of sense however is to a great extent parallel to that of **BANG**, which has dialectally even the sense of 'bounce into a room', etc.]

Originally an adverb, but already in Gothic construed with a genitive = 'outside of', and in WGer. also with dative; in OE. with dat. and acc. The OE. *būtan* split up into two forms in ME.: first, as *prep.* and *adv.*, this strong form *būtan*, *būte(n)*, *boute(n)*, *bout* (cf. As *bout* became *obs.*, but acquired some quasi-prepositional uses; in northern dialect, and esp. in Scotch, *but* (*bot*) had even in 14th c. the senses of ME. *bout*, and still partly retains them. Bow (bau), *sb.3* *Naut.* Also 7 bows, 8 bough, [Recorded only since 1600. Corresp. in form and sense to LG. *būg*, Du. *boeg*, Da. *boug*, Sw. *bog*, all with senses 'shoulder of man or beast', and 'bow of a ship'. The older Teut. forms were ON. *bōg-r*, OHG. *buog* (MHG. *buoc*), MDu. *boech* 'shoulder of man or beast', OE. *bōg*, *bōh* 'shoulder, upper arm', and 'bough of a tree':—OTeut. **bōgu-s* corresp. to Gr. *βῆχυς*, *βῆχυς*, and Skr. *bāhu-s* 'arm'. *Bow* is thus in origin the same word as *BOUGH*, but while the latter has come down direct from OE. in one of the OE. senses, *bow* has been adopted at a later time from LG., Du., or Da., in the special sense of the 'shoulders' of a boat or ship, developed in the maritime speech of one or other of these, but not known to OE. or ME. *Bough* and *bow* have thus widely diverged, the earlier meaning of 'shoulder, arm', not being retained by either. (Not related to *Bow sb.1*, nor to *Bow v.1*, though probably now associated with the latter in the popular etymological consciousness, as appears from most attempts to explain it.)

The normal modern spelling would be BOLL which came down to 17th c. in sense of 'round vessel', and is still used in sense of 'round seed-vessel'; but the early ME. pronunciation of -oll as -ūul (cf. *roll*, *poll*, *toll*, etc.), has left its effects in the modern spelling *bowl* in the sense of 'vessel', which is thus at once separated in form from other senses of its own (see BOLL *sb.* 1), and confounded with BOLL *sb.* 2 a ball, from Fr. *boule*.]

1. 'A [round] vessel to hold liquids, rather wide than deep; distinguished from a cup, which is rather deep than wide.' J. Usually hemispherical or nearly so.

Historically, a *bowl* is distinguished from a *basin* by its more hemispherical shape; a 'basin' being proportionally shallower and wider, or with the margin curved outward, as in the ordinary wash-hand basin; but the actual use of the words is capricious, and varies from place to place; in particular, the ordinary small earthenware vessels, used for porridge, soap, milk, sugar, etc., which are historically *bowls*, and are so called in Scotland and in U. S., are always called in the south-east of England, and hence, usually in literary English, *basins*. The earlier usage remains in *salad-bowl*, *finger-bowl* (now also *basin*), *punch-bowl*, and the *convivial or social bowl* (see *b.*).

compound *bow-sprit* being of English rise, are the

late appearance of *bow* in the language, and the

numerous perverted forms with *bore*, *boar*, *bolt*,

connexion with *bow* was not evident to English

sailors, either in sense or pronunciation. (Quota-

OSlav. root *bol-* 'great'; but Miklosich would connect it with Turkish *boj* 'stature, *bojlu* high; Dahl, and others, with Russ. *боя*, *boi* 'war', which may have influenced the later form. The word occurs in Byzantine Greek as *βοιλάδα*, *βο- λάδα*; Bulg. *bolerin*, Serv. *boljar*, Rouman. *boi'r.*]

A member of a peculiar order of the old Russian aristocracy, next in rank to a *knyaz* or 'prince', who enjoyed many exclusive privileges, and held all the highest military and civil offices: the order was abolished by Peter the Great, and the word is in Russia only a historical term, though still often erroneously applied by English newspaper writers to Russian landed proprietors. In Roumania the *boi'r* still exist as a privileged class. (The Eng. *boyar* appears to have been taken from the plural; *boyard* is an erroneous French spelling.)

Boycott (boi'kpt), *v.* [f. the name of Capt. Boycott, an Irish landlord, who was the original victim of the treatment described.] *trans.* To combine in refusing to hold relations of any kind, social or commercial, public or private, with (a neigh-

bour), on account of political or other differences, so as to punish him for the position he has taken up, or coerce him into abandoning it. The word arose in the autumn of 1880, to describe the action instituted by the Irish Land League towards those who incurred its hostility. It was speedily adopted by the newspapers in nearly every European language (e.g. F. *boycotter*, Du. *boycotten*, Ger. *boycottieren*, Russ. *boikottirovat*, etc.). Bracket (bræk'két). Also 6-7 *bragget*, 7 *braget*, 8 *breacete*, *brockett*. [The earliest form *bragget* appears to be (either directly or through F. *braguette*) ad. Sp. *bragueta*, dim. of *braga*: = L. *brāca*, sing. of *brācæ* breeches; the form *bracket* is a corruption, perh. influenced by It. *bracheta*, dim. of *bracca*: = L. *brāca*.]

The Eng. senses are difficult to account for, but may in part be based on unrecorded senses of the Sp., It., or Fr. words. Prof. Skeat suggests that the 'bracket' of architecture may have been so called from its resemblance to the 'codpiece' of a pair of breeches (Sp. *bragueta* meant both 'codpiece' and 'bracket'). Further, a name suggested by 'breeches' may naturally have been applied to an apparatus consisting of two limbs set at an angle, like the 'bracket' of shipbuilding, or to appliances used in pairs, like the 'brackets' of a gun-carriage. Then, as a bracket of any kind was generally used for support, the erroneous etymology from L. *brachium* 'arm' or its Romance derivatives presented itself, and seems to have affected the development of senses. Cf. also OF. *bracom* and *braguant* 'supporting beam'.]

Sometimes improperly applied to the 'vinculum' or horizontal line over the writing, serving in algebra the same purpose as brackets; also to the 'brace' { used for coupling together two lines of writing or printing (cf. Brag (bræg), sb.¹ Also 5-8 bragg(e, 6 braggue. [The etymology of BRAG sb.¹, vb., adj., and their mutual relations are uncertain. There are several related words in 16th c. French, *braguer* 'to flaunt, brave, brag', *braguer*, *braguerie*; *bragard* 'gay, gallant, braggard, braggadochio-like', *bragardier* 'to brave it, to brag, vaunt', *bragardise*, etc. (all in Cotgr.); but as these appear so late, while some of the Eng. words go back to 1300, the latter cannot be referred to a French origin (though the later *braggart* and *braggery* may). The words are not in other Romanic langs., and their origin has been variously sought in Celtic and in Norse: see *Diez*. It is doubtful whether the *adj.* or *sb.* is the earlier in Eng.; both appear before the vb. The order of senses is also uncertain. *Diez* conjectured that the Fr. might be from ON. *brak* 'creaking noise' (Sw. *brak* bounce, Da. *brag*, *braka* (Da. *brage*) 'to creak, crack, insolenter se gerere' Haldors.; others have suggested ON. *bragr* 'the best, the foremost, the boast or toast (of anything)'; also 'poetry'. In OE. the *g* of the root was often omitted, with lengthening of the vowel (*brédan*, *bréd*, *brúdon*, *bróden*), but the diphthongal form (*breyde*, etc.) prevailed in ME. The pa. pple. had in 13-15th c. the form *broyden*, in 14-16th *browden*, sometimes in 14-15th c. *brawdén*; the phonetic history of which presents some difficulties. By 1400 the original strong pa. t. was displaced by the weak *brayded*, which in the 15th c. had also extended to the pa. pple., though *browden* continued in Sc. at least till 1600. From the strong forms of the pa. pple. appear to have arisen the newer synonymous weak verbs *BROID*, *BROWN*, *BRAUDE* q.v.; see also *BROIDER*, *browder*, *brawdér*.]

1. The convoluted mass of nervous substance contained in the skull of man and other vertebrates. By some earlier scientific writers restricted to the anterior portion (in Latin *cerebrum*) as opposed to the posterior portion (*BRAINLET*, *cerebellum*); but this distinction is now expressed by the Lat. words, which have been adopted in scientific use, and *brain* in technical as well as in popular language includes the entire organ; it is also applied by extension to the analogous but less developed organs of invertebrate animals.

In 16th c. it became usual to employ the *pl.* instead of the *sing.* when mere cerebral substance, and not a definite organic structure, was meant; this usage still continues: we say 'a dish of brains', 'a disease of the brain'.

1. a. *Historically*: The general name for all alloys of copper with tin or zinc (and occasionally other base metals). To distinguish alloys of copper and tin, the name **BRONZE** has recently been adopted (Johnson 1755-73 explains the new word *bronze* as 'brass'). Hence

b. In strict modern use, as distinguished from 'bronze': A yellow-coloured alloy of copper and zinc, usually containing about a third of its weight of zinc.

The OE. *bræs* was, usually at least, an alloy of copper and tin (= **BRONZE**); in much later times the alloy of copper and zinc came gradually into general use, and became the ordinary 'brass' of England; though in reference to ancient times, and esp. to the nations of antiquity, 'brass' still meant the older alloy. When works of Greek and Roman antiquity in 'brass' began to be critically examined, and their material discriminated, the Italian word for 'brass' (*brasso*, *branze*) came into use to distinguish this 'ancient brass' from the current alloy. *Corinthian brass*: a reputed alloy of gold, silver, and copper.

L. *bretachia*, *bertescha*, *breteschia*, etc. Of uncertain origin; according to Mahn (to whom Diez adheres) prob. a derivative of Ger. *bratt* board, with Romanic suffix -esca, with sense of 'boarding', 'boardwork'. The early forms in *bru-*, *bry-*, app. of English or Anglo-French origin, are due perhaps to the obscurity of the first vowel. The 15-16th c. forms in *ber-*, *bar-* were northern: see BRATTIOING. The original sense became obs. before 1500. To modern times the word has come down in local use, chiefly in connexion with coal-mining, in the forms *brettis* (Derbyshire), *brattice* (Newcastle, etc.), *brattish*. Although *brettis* is the best form etymologically, *brattice* has become more generally known, and accepted in literary use; *brattish* has given the architectural *brattishing*.]

The general sense is 'boarding, planking, a structure of boards'. Hence *spec.*

brasiliun, *brasillum*, *brasile*: of unknown origin; perh. a corruption of an oriental name of the dye-wood originally so called. On the discovery of an allied species, also yielding a dye, in South America, the territory where it grew was called *terra de brasil*, 'red-dye-wood land', afterwards abbreviated to *Brasil* 'Brazil'. *Brasil*-wood was thus not named from the country, but the converse was the case. Formerly pronounced in Eng. *brāzil*, as shown by rimes and spellings.

Conjectural etymologies are F. *briser* to break, *brësiller* to crumble (as if the wood arrived in a broken state); also F. *braise*, Sp. *brasa* 'glowing coal' (from its colour); also Arab. *wars* saffron, in some parts pronounced *vars*, *vers* (cf. It. *versino*). See *Diez*, *Littér.*

I. The substance.

1. Originally, the name of the hard brownish-red wood of an East Indian tree, known as Sappan (*Cesalpinia Sappan*), from which dyers obtain a red colour. After the discovery of the New World, the name was extended and gradually transferred to the similar wood of a South American species (*C. echinata*), which has given its name to the land of Brazil, and to other species, natives of the West Indies and Central America, 'all valuable to the dyer, producing various tints of red, orange, and peach colour'.

Bread (bred), sb.¹ Forms: 1 bréad, 2-3 bread, (2 brad), 2-3 bréd, 2-7 bréd, (3-5 bredd), 3-6 brede, (4 bryad, bryead), 4-6 brede(e), 5-7 breade, 6- bread, 5- Sc. breid, (6-7 brédde, 7 braid, 9 dial. brade). [OE. *bréad*, pl. *bréadrū*: repr. WGer. **braud*, and corresp. to OFris. *bréd*, OS. *brōd* (MDu. *broot-de*, Du. *brood*, LG. *brōd*, brood), OHG., MHG. *brōt* (Ger. *brød*, *brat*); ON. *brauð* (Sw., Da. *brød*):—OTeut. **braudos*, a neuter -os stem, not preserved in Gothic. The original Teutonic name for bread survives in the modern LOAF (OE. *hlāf*, OHG. *hleib*, ON. *hleifr*, Goth. *hlaifs*, *hlaihs*, OTeut. **hlaibo-s*) formerly in all the langs. in the sense of 'bread' and 'loaf'. *Braudos*, *brōd*, *bréad*, appears to have originally meant 'piece, bit, fragment, L. *frustum*': but already in OS. and OHG. it had the acquired sense of 'bread'; OHG. shows no clear distinction of meaning between *brōt* and *hleib* (Sievers). In OE. *bréad* is rare: the later Blickling Glosses have the pl. *bréadrū*, 'frusta' (i. e. 'pieces, bits'). The other examples are all Northumbrian, in the Lindisfarne (& Rushw.) gloss; viz. *John* xiii. 27, 30 translating *buccella*, the 'mouthful' given to Judas, for which the Ags. Gospels have *bitan*, Wyclif *morsel*, Rhemish *morsel*. In verse 26 where the Vulgate twice renders the same Gr. word (*ψαλίον* bit, piece) by 'panem', later versions 'bread', the Ags. has *hlāf*, Lindisf. *laf*, which seems to show that *bréad* was not yet identified with *panis*. But in *John* vi. 23, *bréad* actually represents *panem* of the Vulgate (= *ἀπρόν*), and *hlāf* of the Ags. version: where however *broken bread* is in question. Before 1200 *bread* had quite displaced *hlāf* as the name of the substance, leaving to the latter the sense 'loaf' which it has since retained. It thus appears that a word originally meaning 'piece, bit, *frustum*', has passed through the senses of 'piece of bread', 'broken bread', into that of 'bread' as a substance; while at the same time the original word for 'bread, loaf, *panis*' has been restricted to the undivided article as shaped and baked, the 'loaf'. The Lowland Scotch and north. dial. use of *piece* illustrates anew the first step in this transition, for it is the regular word for a piece of bread, as in 'give the bairn a piece', 'a beggar asking a piece', a 'piece-poke', a 'gie's-a-piece' i. e. a beggar.

So also in Slovenish, *krav*, "bread" is literally 'a piece, something broken off' (Miklosich, *Etym. Wöck. Slav. Spr.* 143).

With *brōd*, *bréad*, Prof. Sievers connects the Ger. *brosame* crumb, in OHG. *brōsma*, OS. *brōsma*—OTeut. *brandsmon*, the sense of which confirms the original meaning of **braudos*, and points to some root having the sense of 'break'. OE. *brōtan* does not answer phonetically. (The preceding facts are, of course, quite inconsistent with the conjecture that *bread* is a deriv. of the verb-root *brw* to BREW.)

[OE. *brecan* (*bricp*), pa. t. *bræc*, *bræcon*, pa. pple. *brecen*], corresp. to OFris. *breka*, OS. *brecan*, (MDu., Du. *brecen*), OHG. *brehhan* (MHG., mod.G. *brecen*), Goth. *brikan* (pa. t. *brak*, *bræcum*, pple. *brukans*):—OTeut. stem *brek-*, corresp. to L. *frag-* (*frang-o*, *frigi*, *frac-tum*), Aryan **bhreg-*. The original short vowels of the present stem and pa. pple were lengthened in ME., though *breek*, *brick*, and *broken* are still retained dialectally. The normal pa. t. *brak*, *brack* (= OE. *bræc*, Ormin's *bracc*), remains in the north; the normal plural in ME. was *braken*, *breeke'n*, which would have become *breae* in 16th c.; but by the operation of levelling, we find also a ME. sing. *bræk*, *breek*, and a (north.) pl. *brak*, *brack*; a pl. *braken* occurs in Layamon, and in late ME. *brake* became the regular form both in sing. and pl., which, being retained in the Bible of 1611, is still familiar as an archaic form. But early in the 16th c., if not before, *brake* began to be displaced by the modern *broke*, formed after the pa. pple. Of the pa. pple, *broken* is still the regular form, but from the end of the 14th c. this was often shortened to *broke*, which was exceedingly common in prose and speech during the 17-18th c., and is still recognized in verse.]

[*OE.* *brōst* = *OFris.* *brīst*, *OS.* *brīst*, *breost*, *ON.* *brjst*, (Sw. *brist*, *Du.* *bryst*) neuter, answering to an OTeut. type **breusto(m)*: represented in Goth. by *brusts* fem. pl. (no sing.): OTeut. **brust-s* consonantal fem., 'prob. originally inflected as a dual' (Kluge), whence OHG. (MHG., mod.Ger.) *brust* fem., MLG. (MDu., Du.) *brōst* fem. (with metathesis of *r*). The term is confined to Teutonic, there being no common Indo-Europ. name for the breast. As to the form and derivation, see below.

OE. *brō* became normally *ME.* *ē*, *ee*, mod. *ee* (*f*), and in *Sc.* and *north dial.* *breast* times with *prist*; but in Standard Eng., the *e* has been shortened before the two consonants; the spellings *breast* and *breist* run side by side from 16th to 18th c.; in current usage we spell *breast* and pronounce *breist*. The difference of vowel in OTeut. **brust-*, **brust-* is explained by the fact that all monosyllabic consonantal stems had originally shifting stress, with corresponding ablaut (**brust-s*, **brust-de*); the neuter gender in *OE.*, *OS.*, and *ON.* by the supposition that **brust-s* was orig. inflected as a dual (the two breasts) of which the nom. and acc. **brust-* would later become **brust*, *brōst*, which after the loss of the dual would naturally be treated as neuter pl., as in other known instances. Even in senses 2, 5, the plural was usual in *OE.*, as exclusive in Gothic. **Brust-* cannot be connected with *bristan*, *brēstan* to burst: but it may be related to the *OS.* verb *brustian* to bud, and be a root-noun from a vb. **brust-an* (see *Lex.* under *brust*), a specialized derivative of **brust-an* (i.e. **brust-stan*; **brust-an*: cf. **brēk-stan*, *brēstan*, *f. brēk-an*). The 'breasts' would thus be orig. the *mammæ* or paps, likened to 'buds' or 'sprouts'. See further *Kluge Beitr.* VIII. 510.]
